I am assuming you've seen this. Marcia Mia in OECA alerted me to it on Friday because there were a few oil and gas related matters that she was asked to update. I reached out to OITA and plan on reaching out to OW to ask that we discuss briefing book entries (re: oil and gas) via the UOG POC. Just FYI.

Good morning. Thanks to everyone for helping to get Susan Bodine ready for the upcoming NTOC meeting. Attached is OITA's briefing book. I'm in the process of converting ours to PDF. When it's done, I'll let you know and post on the intranet site under briefing books @ <http://intranet.epa.gov/oeca/tribal.html>

**Subject:** Final draft NTOC materials

HICs and RICs –

Thanks for your patience as AIEO works with leadership to get final review of the NTOC meeting materials.

I am sharing a single pdf version of the final materials. Note that the agendas still have the draft annotation, as AIEO will be briefing the Administrator on Monday. After that briefing we will mark the agendas as final.

Please note that some of these materials are marked as internal only and should not be shared outside of EPA. Final printed materials will be available in the Green Room upon your NTOC members' arrival on April 10.

If you have any questions please contact me or Daniel Vaught.

Thanks,  
Paige
